TIGER/ Military-USSR HR from HW 11/30/73 PLEASE RETURN via Jim White, 35 Castle Rock Dr., Mill Valley, Calif. 94941

The attached story from Today's Post is one I probably would not have taken time to read had I not been getting the car serviced. I took the paper to read.

What is of special interest to me is marked. The reasons for the interest will be obvious toyou.

I think this piece gives you an excellent opportunity to try some political analysis. Therefore, I make no additional comment on the other protions. Thinking about this can be instructive and informative, particularly the timing. I here suggest that orienting it with the Helsinki talks is not all you should consider, if it is all the author does. There are other things going on in the world, all predictable before the incident reported.

Please leave this note attached so I'll know where to file when it comes back.
